Click on **ADD NEW PRODUCT**

To add a new product click on **Catalog tab** on the header and select **add new product** option from the drop down.

2.1. General Information:

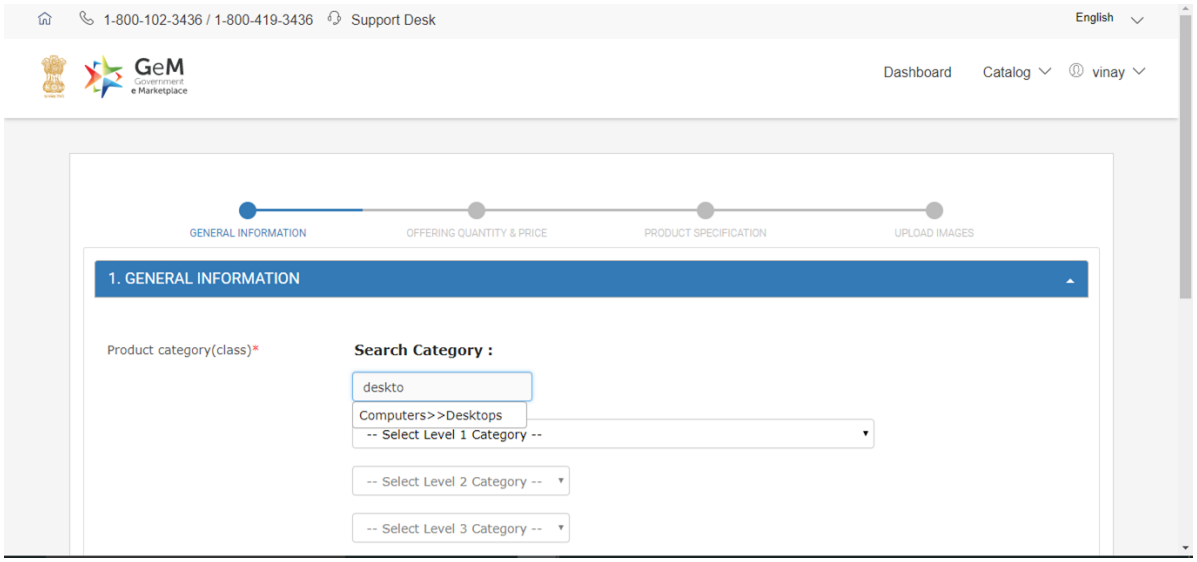

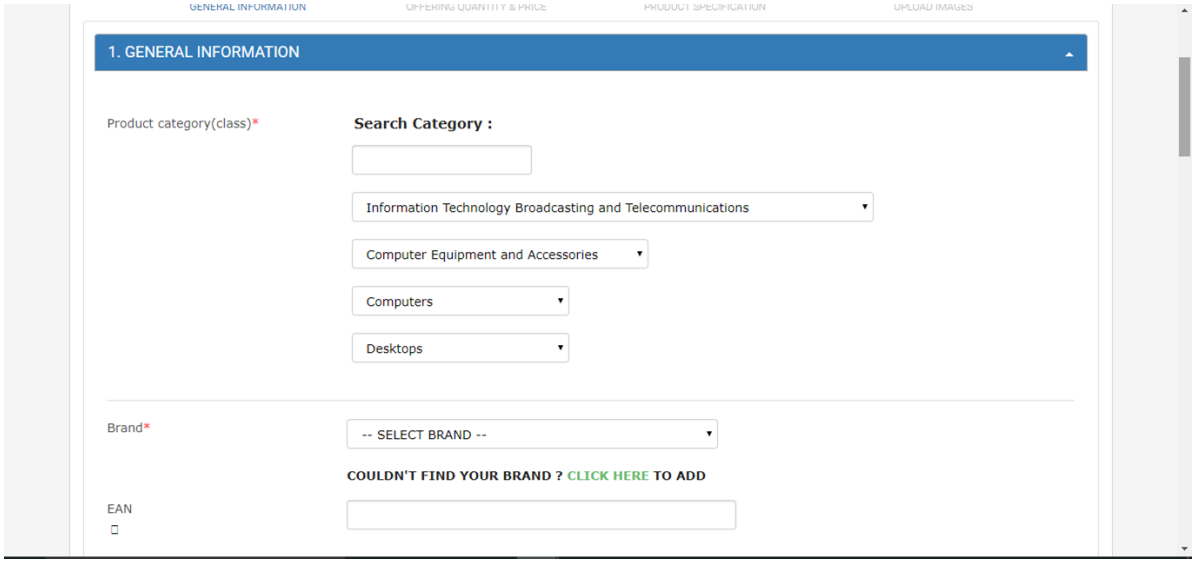

Once you land to the product creation tab. You can search the category of your product through the search bar (Search Category). Or you can also select all the 4 categories through the dropdowns. Please check the below screen shots for your reference. The first step of the product upload trail is **General Information**. The trail is shown above on the screen shot.

Search Category:

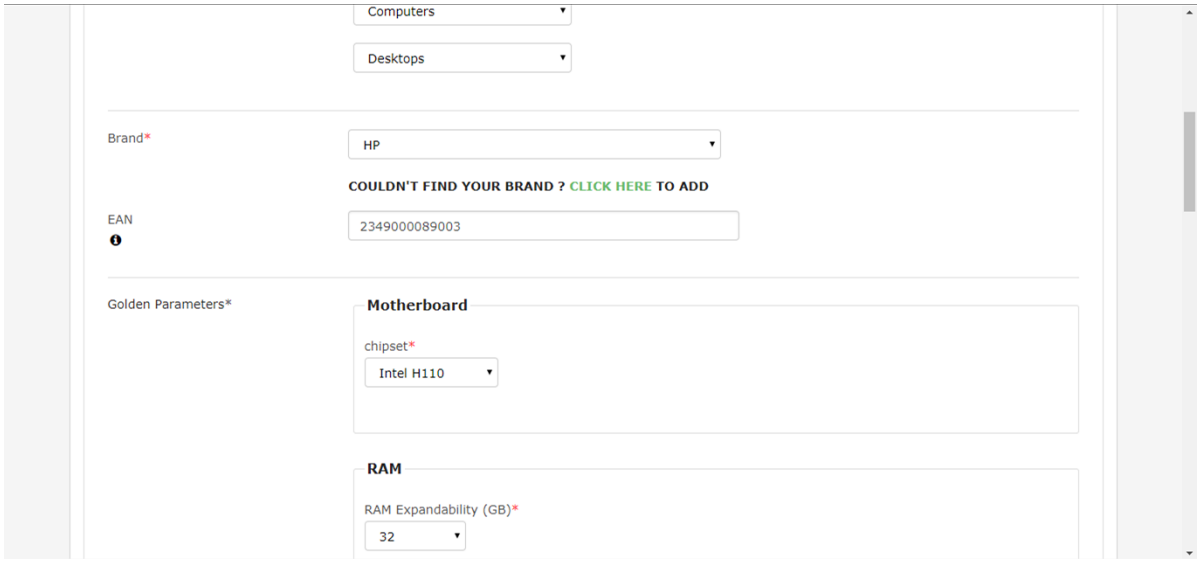

Product Category

The seller while searching for desktop category and when selected all the 4 fields will get filled automatically.

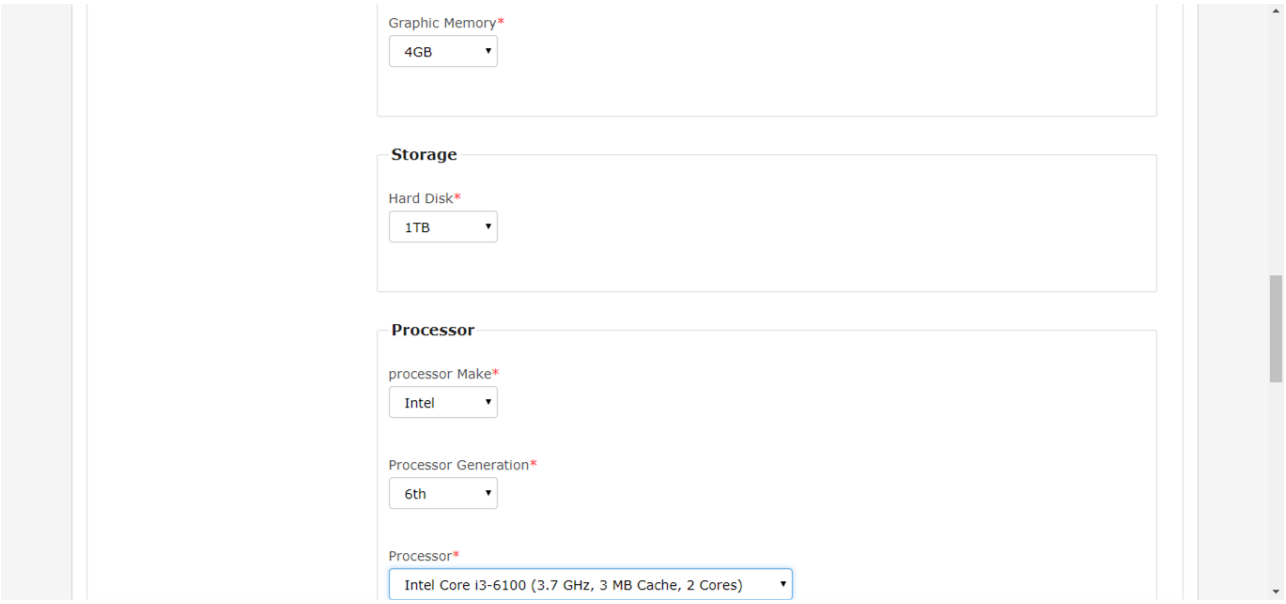

Brand:

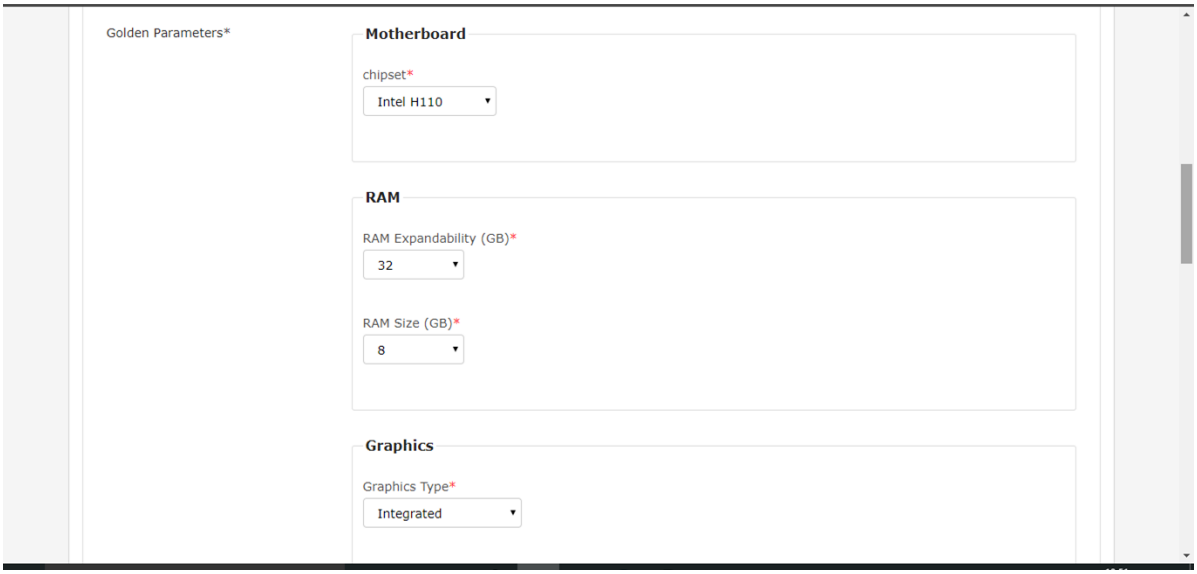

You can select the brand through the drop down under the brand field. If the existing brand is not there you can create a new brand by clicking on click here option below the brand field. You can add the new brand which will be checked by the brand sanitization team and approved.

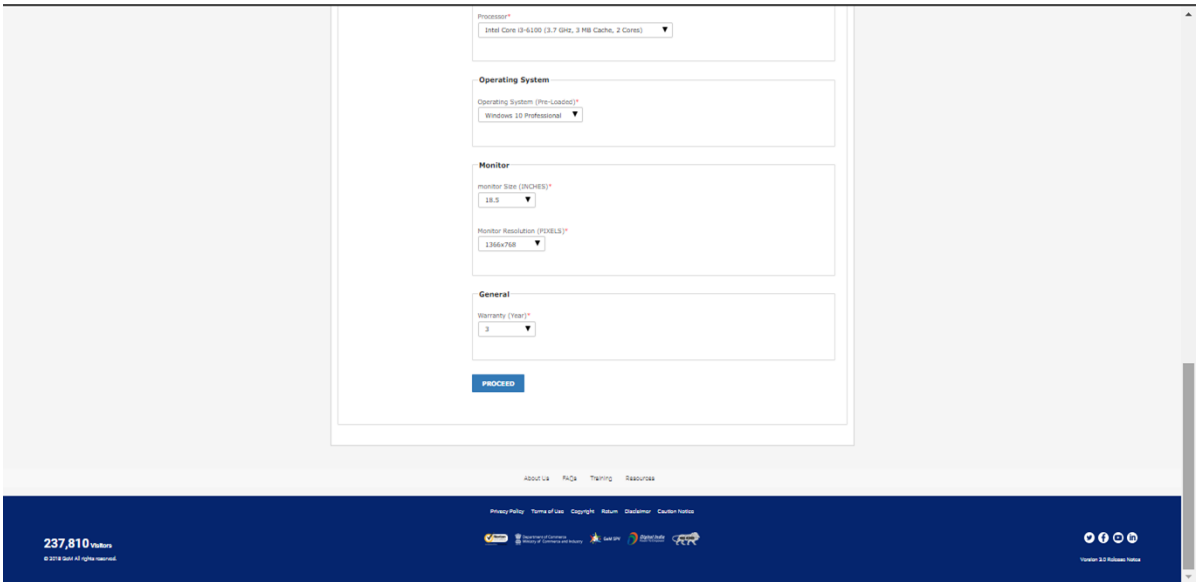

After selecting the brand you can fill in the golden parameters. The golden parameters are different for different categories. Here for this category they are Motherboard, RAM, Storage, Processor and so on. Please note that these are mandatory and has to be provided. If these are not provided you cannot proceed further.

Golden Parameter

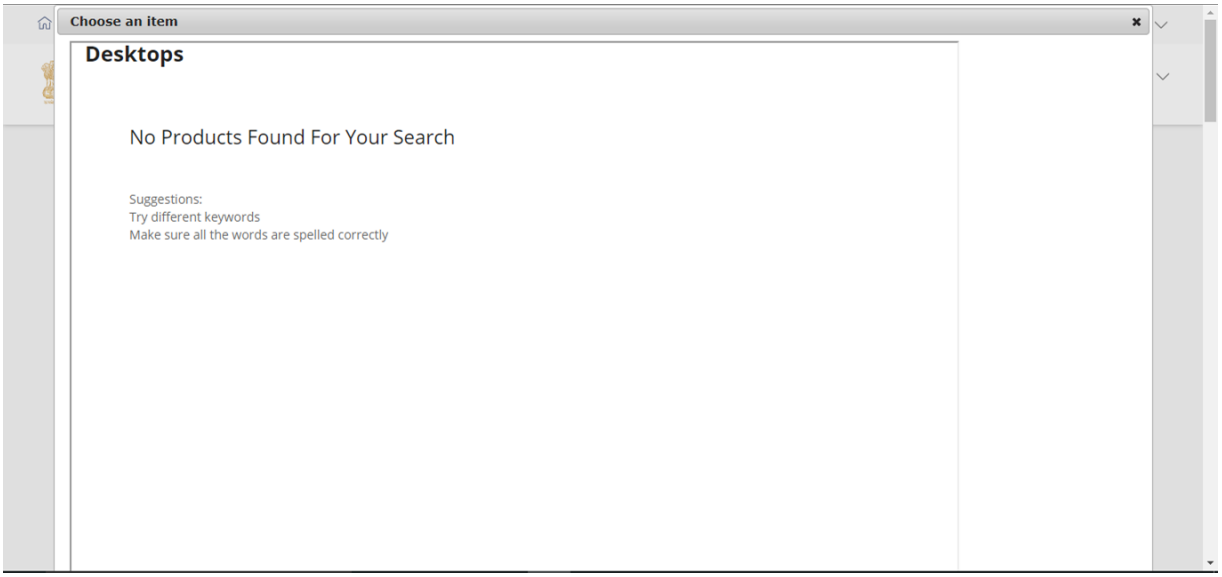

Click on Proceed

Once the golden parameters are provided you click on proceed.

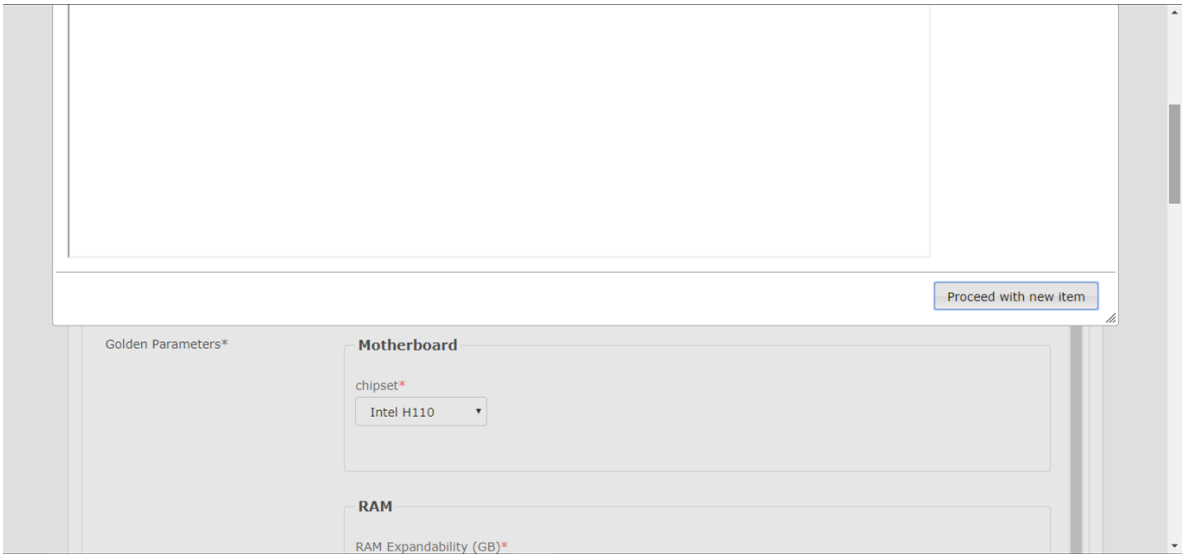

Choose an Item

Desktop

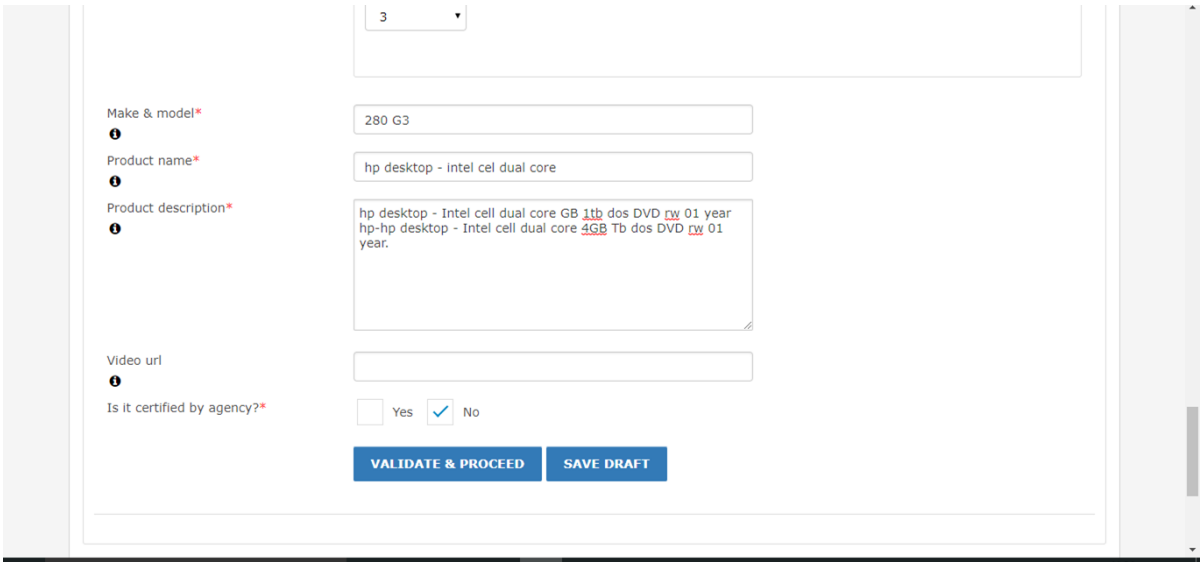

Once you click on proceed a new pop up will come. If a similar product already exists in GeM then you can map your product to the existing one. If the uploaded product is a new one you can continue creating a new product by clicking on proceed with new item.

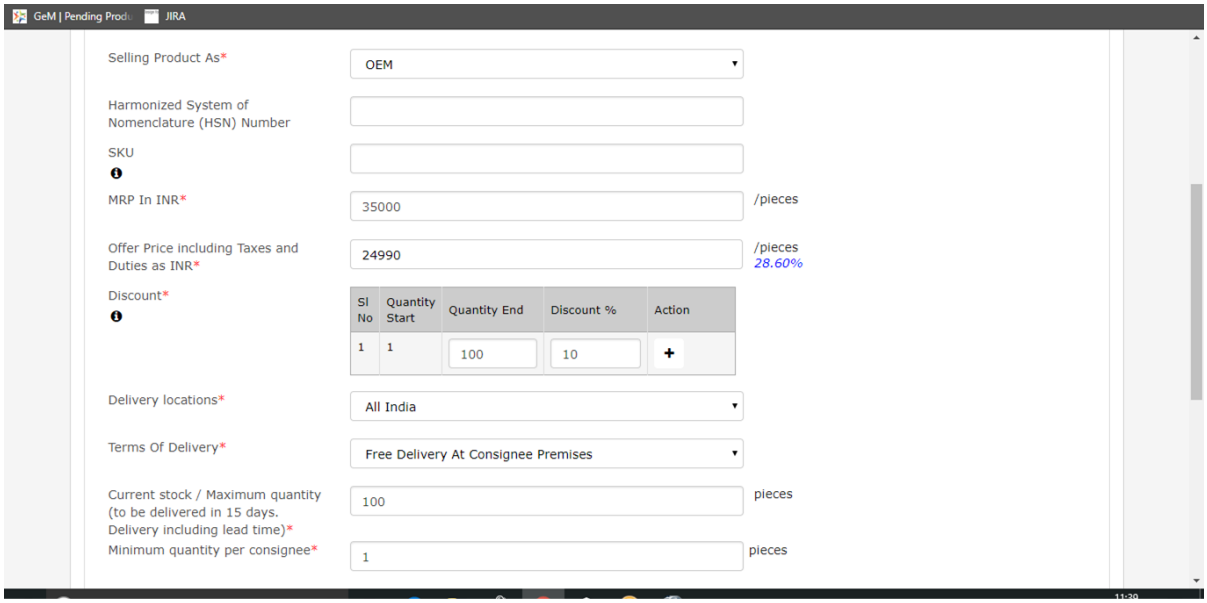

Proceed with new item

Click on Validate Proceed

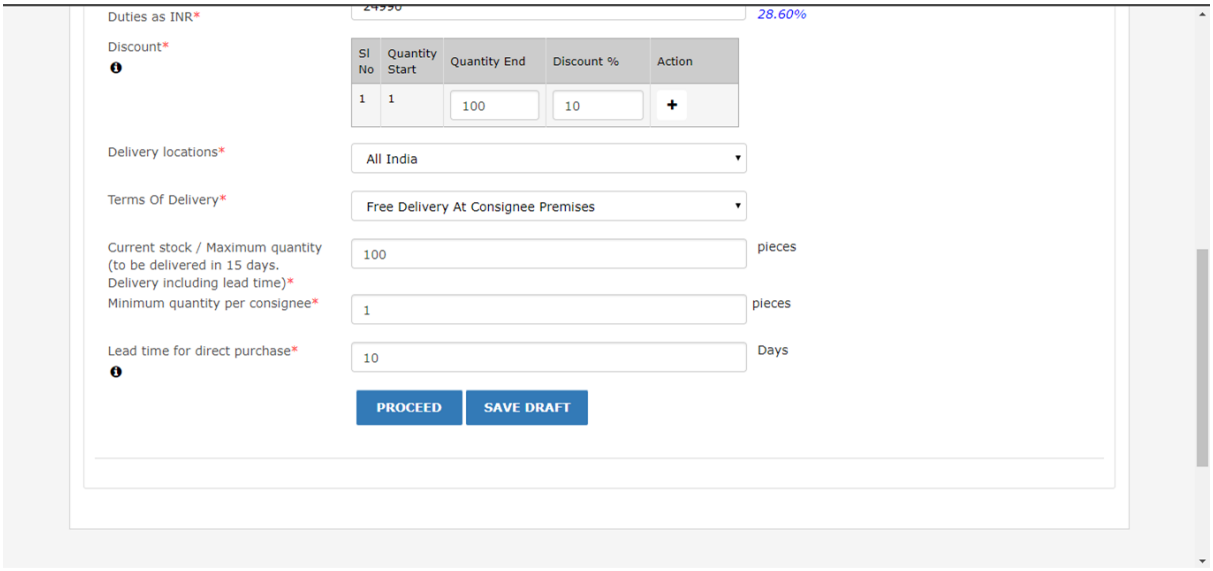

Once you click on proceed with new item you will have to provide the rest of details like Make and Model, Product name, Product description, Video url and Is it certified by agency? Please note that the video url is not a mandatory field. The rest of the fields are mandatory fields. Click on validate and proceed.

2.1.1. Offering Quantity and Price

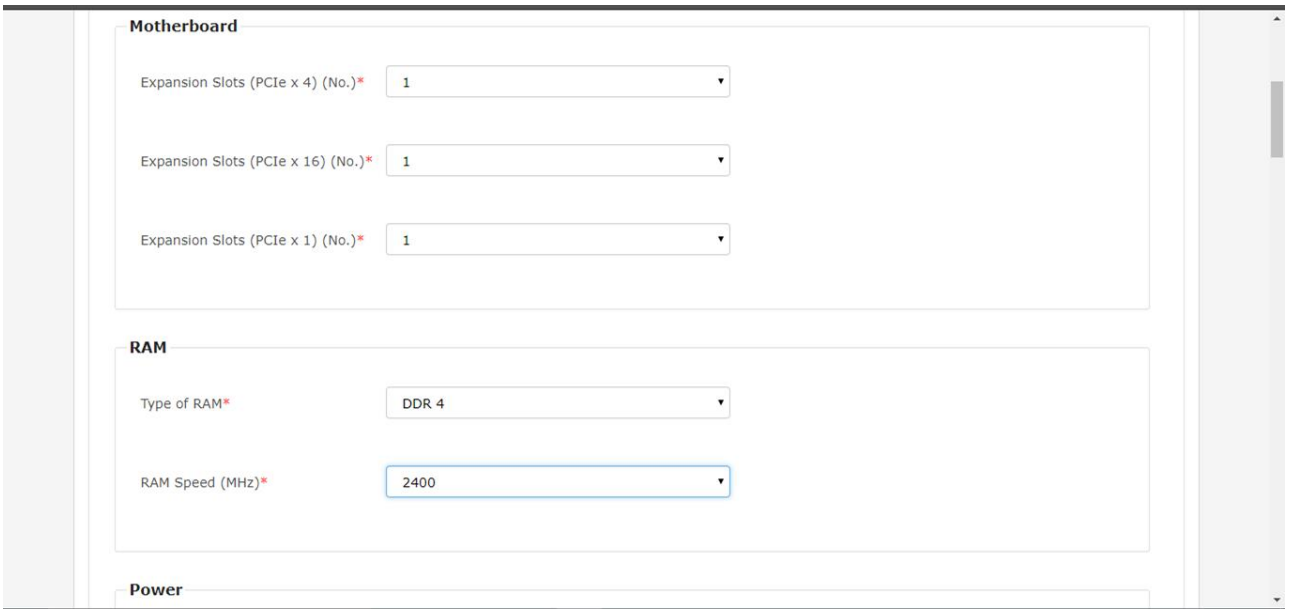

The next step on the product upload trail is **Offering Quantity and Price.** On this page please fill the provided fields, selling product as, HSN number, SKU (Stock Keeping Unit/Part Number) MRP in INR, Offer price, Discount (any additional), delivery location, terms of delivery, current stock, minimum quantity per consignee and lead time details.

Please note that the offer price should be a minimum 10% lesser than the MRP. This is mandatory. After providing all the details you can click on proceed.

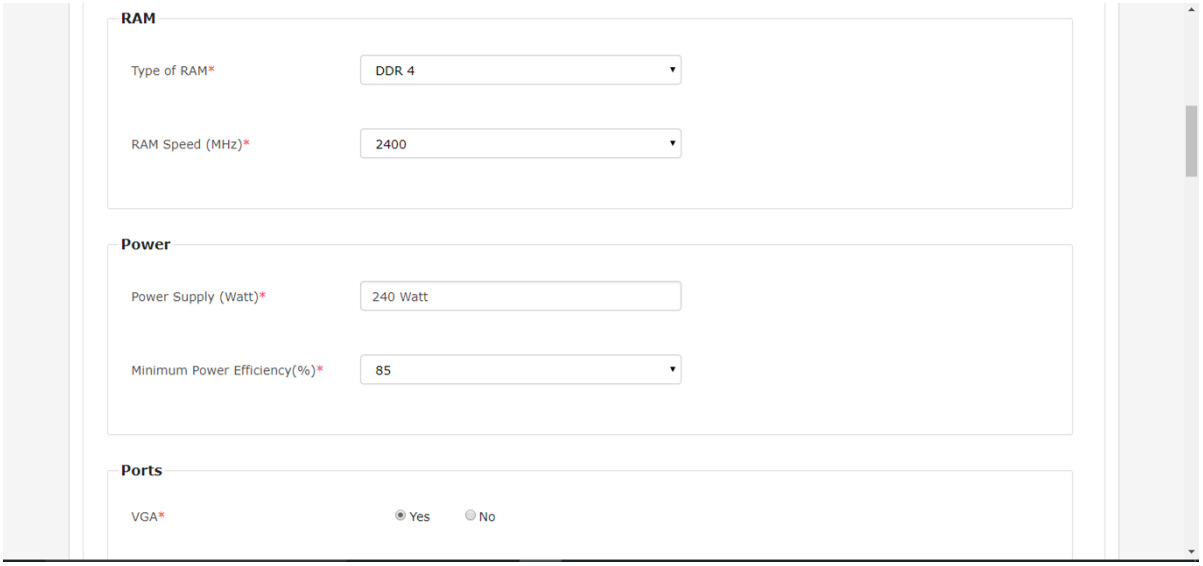

2.2. Product and Specification

Motherboard:

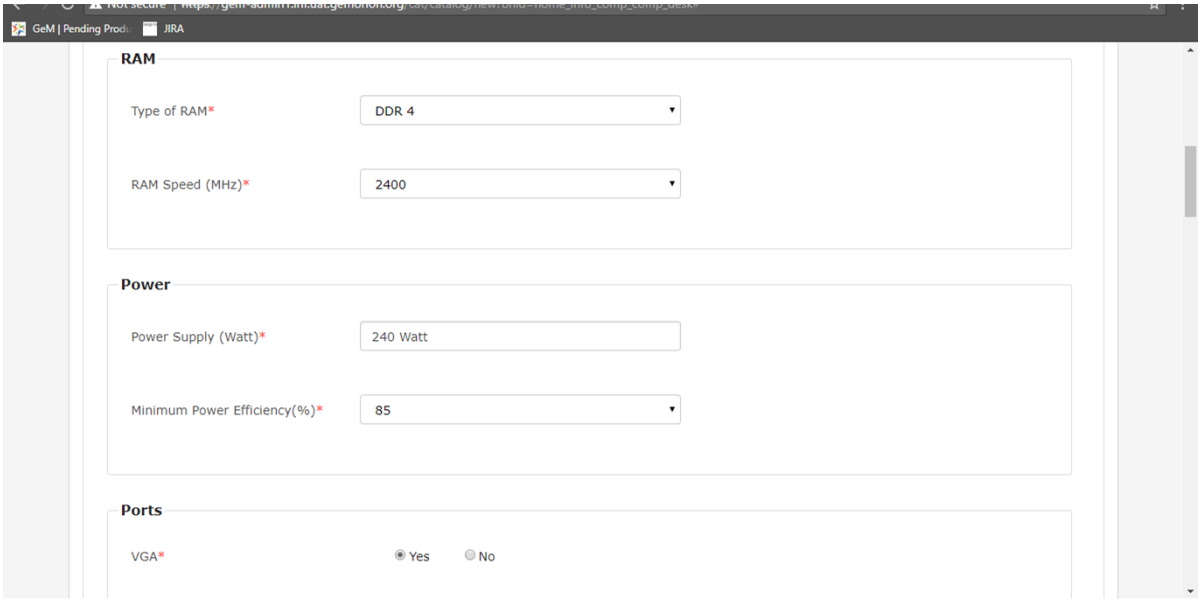

The next step on the product upload trail is **Product and Specification.** Here you can provide the specifications of the product. Each category will have different specifications. In this case Mother board, RAM Power and so on.

Once the images are uploaded you will have to mandatorily click on read terms and conditions before clicking on creating the new product. Please note that if the terms and condition are not read you cannot create the product.

Terms and conditions

General terms and conditions on GeM 3.0 (Version 1.1)

1. **Introduction**

This document is an electronic record published by GeM under the provisions of the Information Technology Act, 2000 and the rules made there under (as applicable) and shall act as valid agreement between Seller / Service Provider and Buyer. Further the use of GeM Portal for Sale / Purchase of Goods / Services and the **resulting Contracts shall be governed by the following General Terms and Conditions (GTC) (unless otherwise superseded by Product / Service specific Special Terms and Conditions (STC) and BID/Reverse Auction Additional Terms and Conditions (ATC) as applicable).**

Government e-Marketplace (GeM) is the National Public Procurement Portal; an end-to-end online Marketplace for Central and State Government Ministries / Departments, Central & State Public Sector Undertakings (CPSUs & SPSUs), Autonomous institutions and Local bodies, for procurement of common use goods & services. The portal is owned and managed by GeM SPV which is a Section 8 (Non-Profit) Company registered under the Companies Act, 2013. GeM SPV operates, monitors and supervises all the business transactions on the portal through the Managed Service Provider as per roles and responsibilities defined in the Legal Framework Document available on GeM portal.

2. **General Terms and Definitions:**

a. **APPLICABLE LAWS"** shall mean any statute, law, ordinance, notification, rule, regulation, judgment, order, decree, bye-law, approval, directive, guideline, policy or other governmental restriction as may be in effect.

b. **GOODS"** shall mean an Article / product or an intangible product like software, technology transfer, licenses, patents or other intellectual properties being offered for sale on the GeM portal by Seller(s) on GeM. The term 'Goods' shall also include works and services which are incidental or consequential to the supply of such goods, such as, transportation, insurance, installation, commissioning, training and guarantee / warrantee obligations as defined in the scope of supply given in the contract.

c. **SERVICES"** shall mean the services offered or provided by the Seller such as IT Professional Services, Manpower Services, Security Services, Transport Services, etc. listed as Services on GeM. The term 'Service' shall also include supply of goods / articles which are incidental or consequential to the provisioning of such Services as defined in the scope of supply given in the contract.

d. **SERVICE LEVEL AGREEMENT (SLA)"** shall mean the Contractual Commitment that prevails between the Buyer and the Service Provider with regard to type of service to be provided, deliverables, desired performance level, reliability and responsiveness, monitoring process and service level reporting, response and issue resolution time-frame, repercussions / penalties / remedies for service provider not meeting its commitment. The SLA of a particular contract may carry the matrix regarding the delivery of the goods and/or services and the corresponding penalties or remedies and liquidated damages as applicable.

e. **CATEGORY SPECIFICATION"** shall mean the framework of technical features, functional capabilities, technical properties, certifications of the items etc. in a particular category. The Specifications shall identify the key parameters defining the products with all necessary validations related to configuration, type of data, restrictions, range / allowed values, allowed units etc. Sellers as well as Buyers while offering / buying the Goods / services shall have to comply with the validation rules / restrictions provided for in the Category Specification. Buyers / Sellers can not add parameters and / or drop down values not provided for in category Specification. If any Buyer / Seller desire to add new parameter, value, validation etc. against any category specification, they have to raise request for the same to GeM for incorporation in Category Specification.

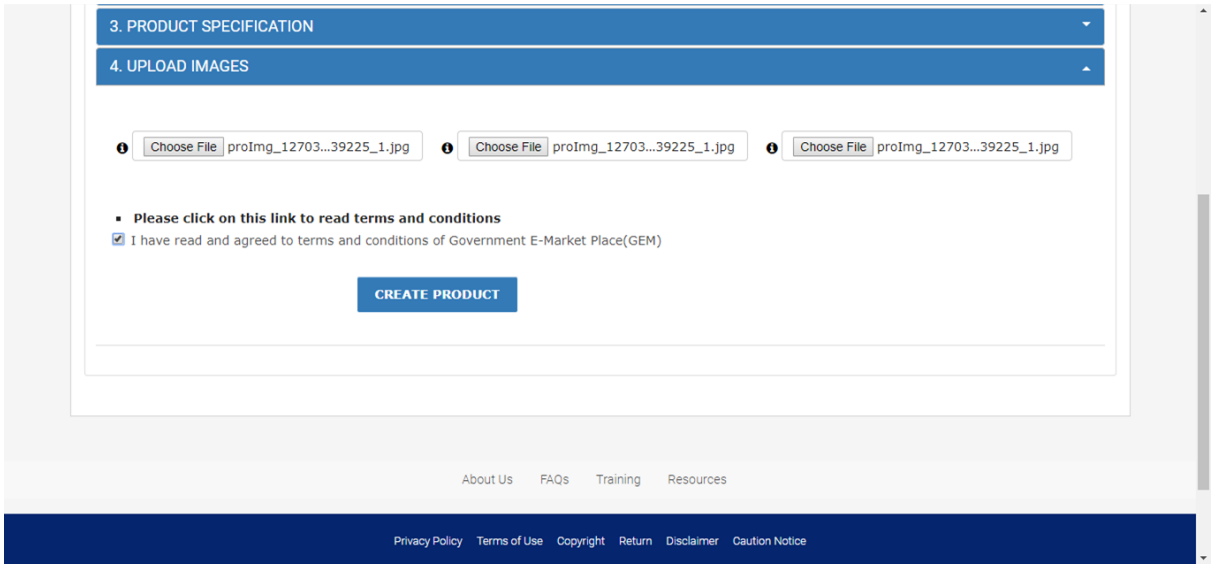

f. **BUYER"** is the Contract placing authority, which includes Central/State Government Ministries/Departments including its attached/subordinate offices, Central/State Public Sector Units (PSUs) and Autonomous Bodies acting through its authorized officer(s) for and on behalf of President of India/Governor of the State /PSU/Autonomous Bodies, as the case may be, for purchase of Goods/Services offered by Sellers on GeM.

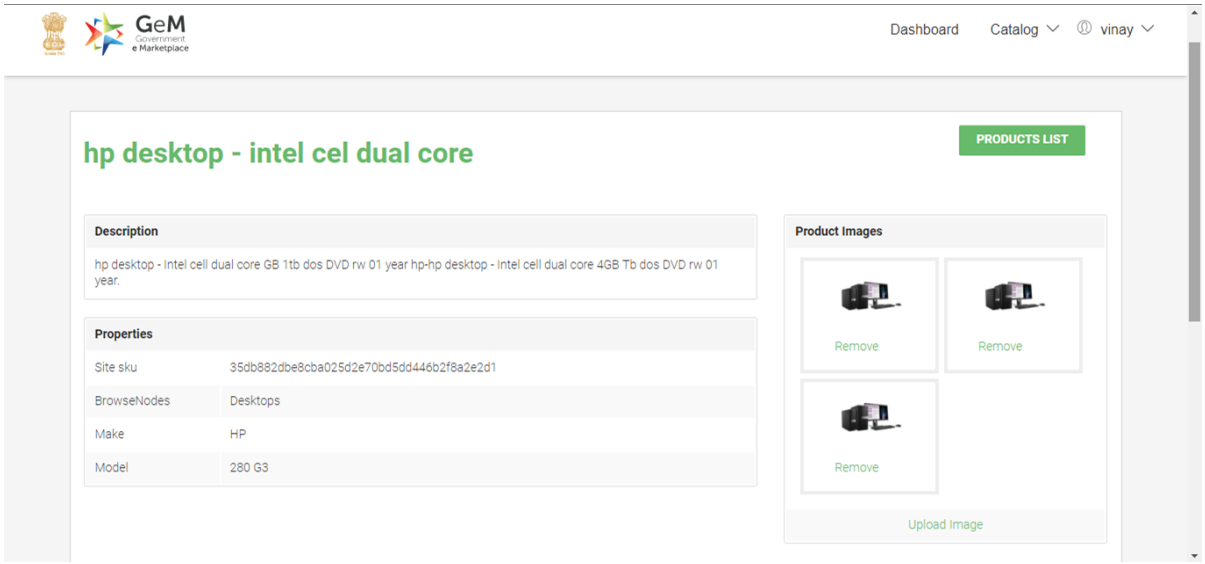

g. **SELLER / SERVICE PROVIDER"** on GeM shall mean any legal entity such as firm(s) of Proprietorship / Partnership Firm / Limited Liability Partnership / Private Limited / Limited company / Society registered under Society's Act / Statutory Bodies etc., registered on GeM to sell its Good(s) / Service(s) to the Buyers registered on GeM.

The "Seller on GeM" will be either OEM (Original Equipment Manufacturer") or Seller having authorization to sell products manufactured by the OEM in open market

Chat With Us

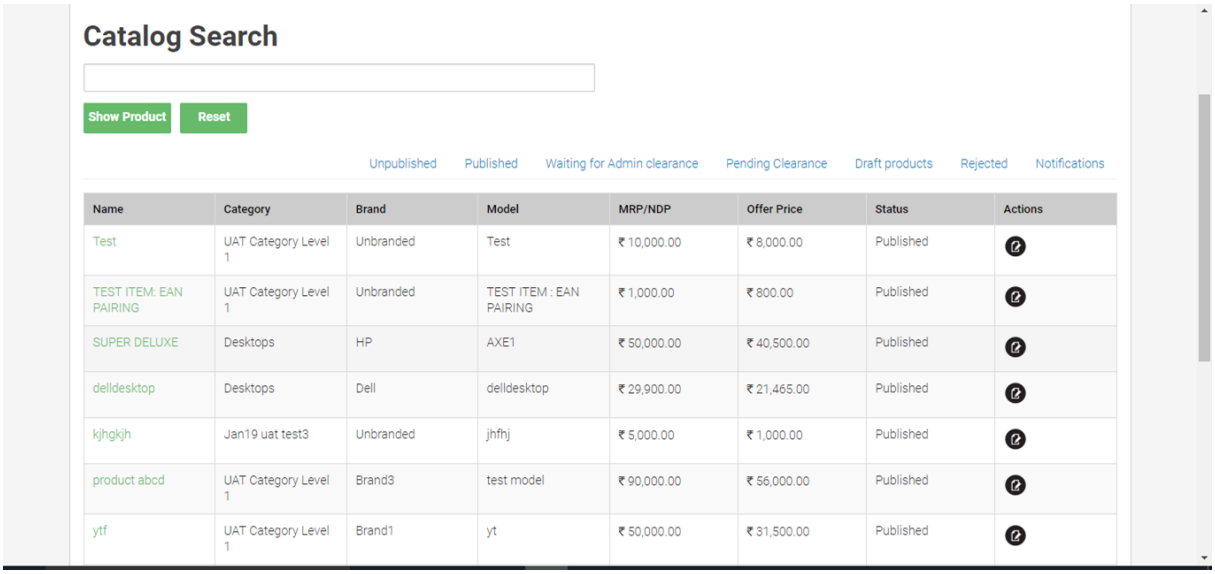

Select I have read and agreed to terms and conditions of Government E-Market Place(GEM) and click on Create Product. Once done the product is sent for approval to GeM Admin who reviews all the details before deciding to publish the product or reject it with corresponding reasons.

3. Seller Desk - Management

Seller Desk Landing Page

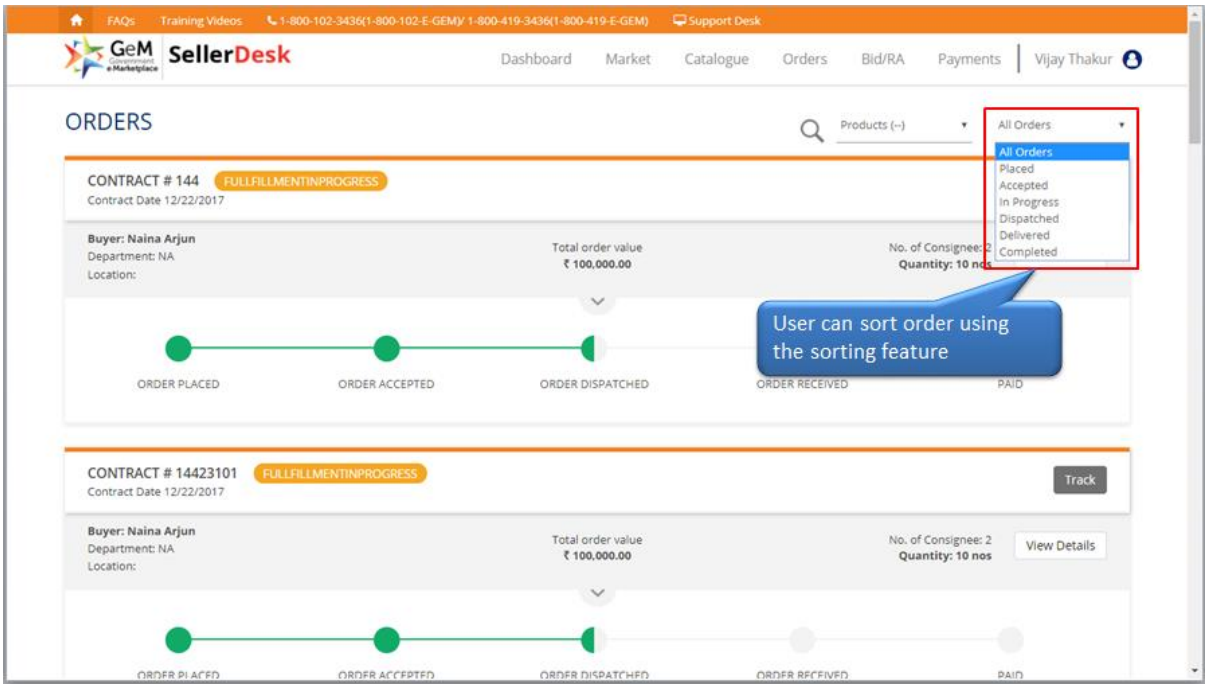

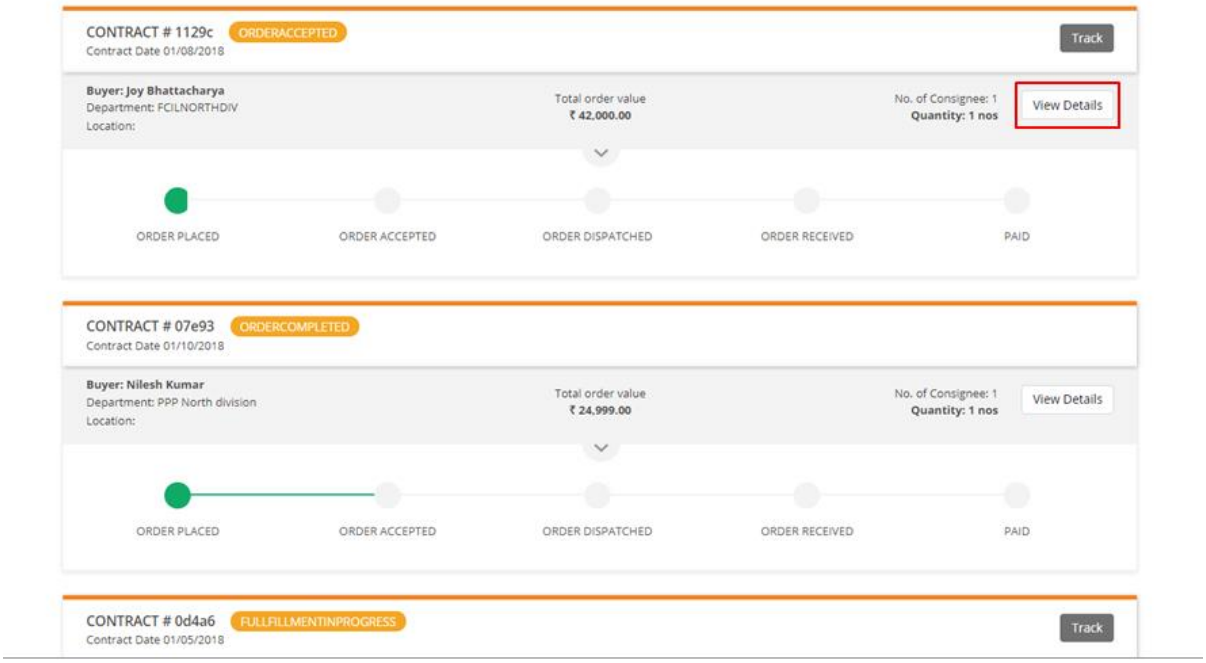

On click of the ORDERS Tab will you to the orders issued to him/her.

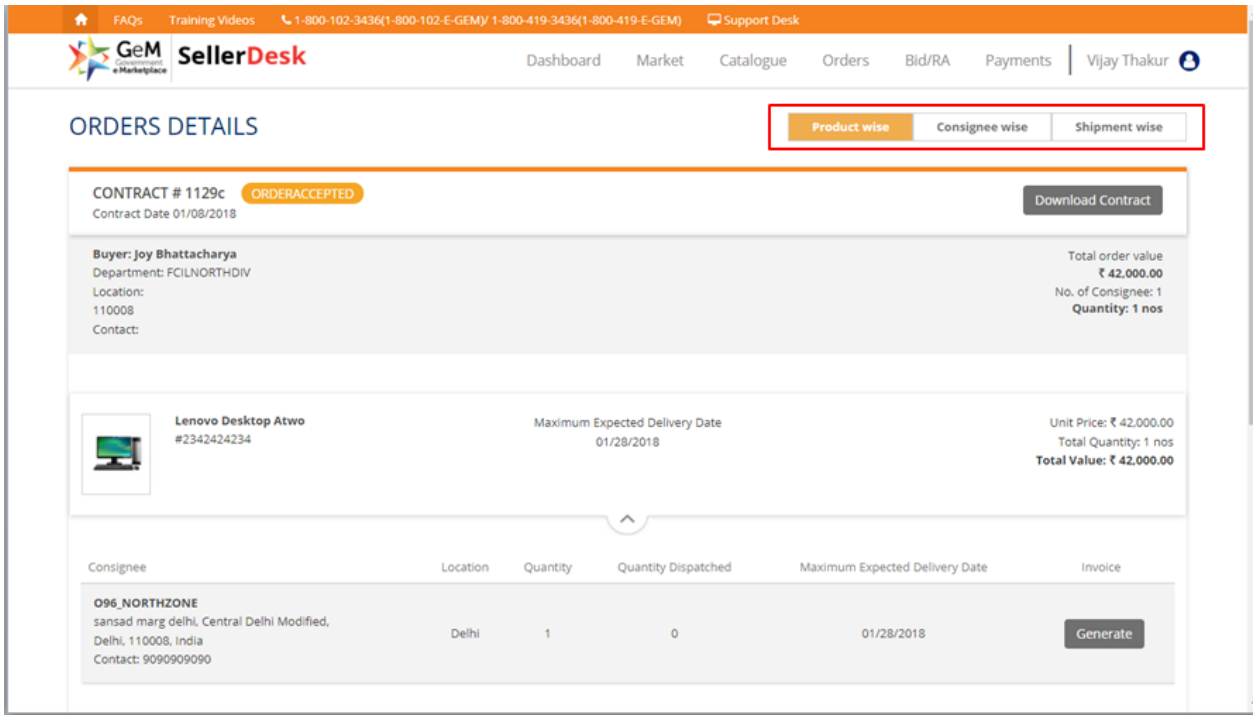

The seller have the provision to filter their order by Product wise or Services wise, also can further filter by placed, accepted, in progress etc.,

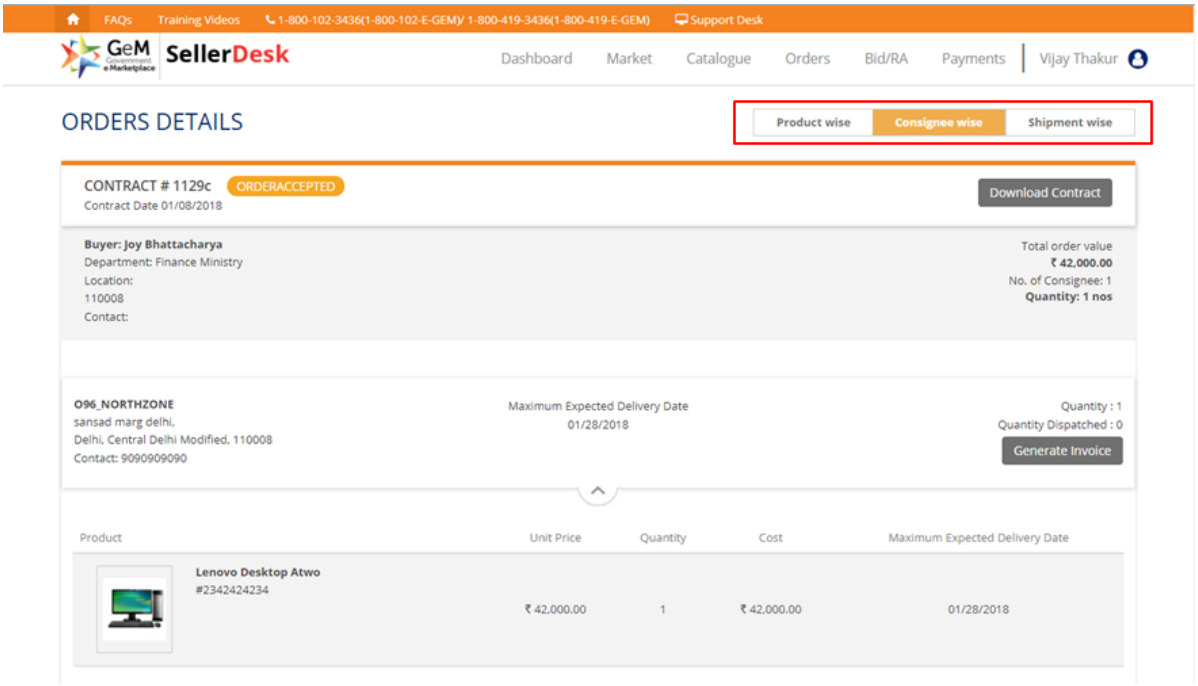

To track and drill down in specific to an order, seller can click on the VIEW DETAILS to get in to the order and see further details.

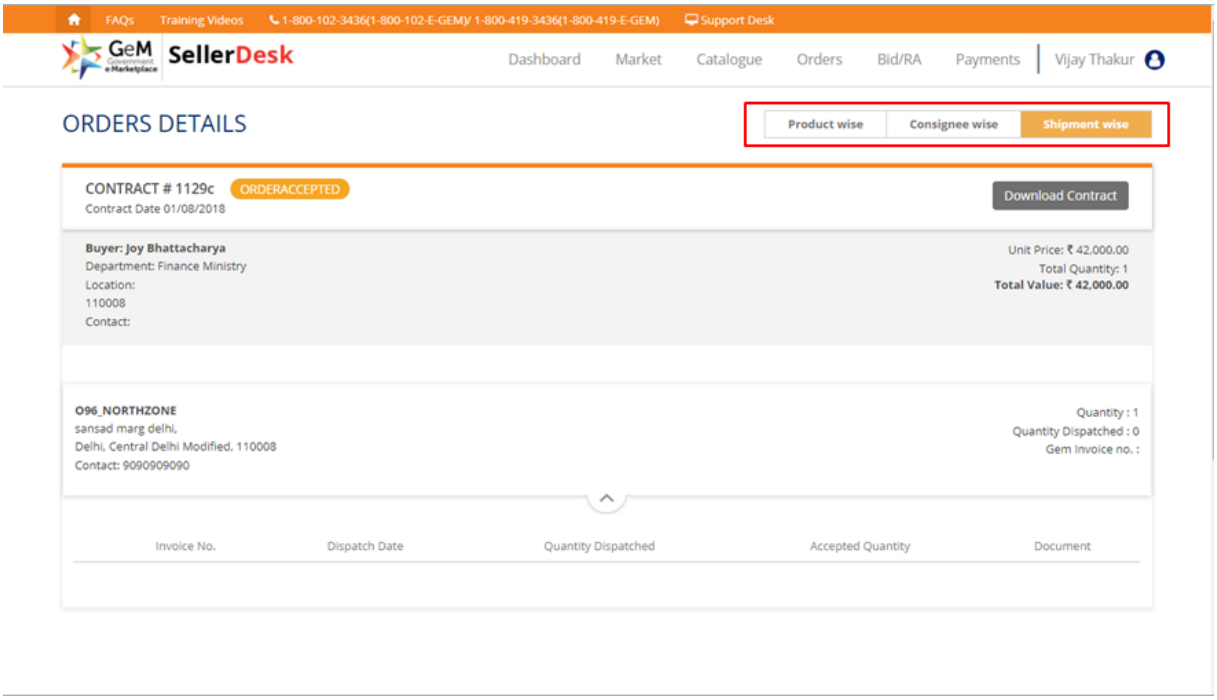

The ORDER DETAILS screen will give the seller complete details of the order and can sort it by PRODUCT wise, Consignee wise, Shipment wise.

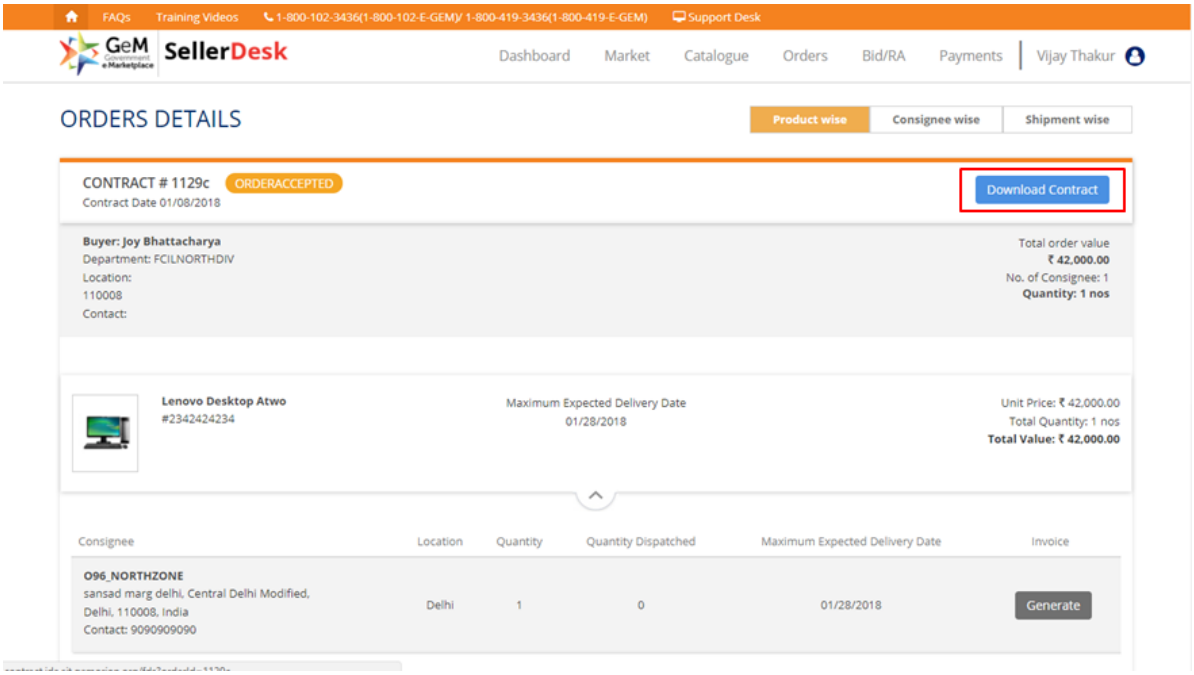

Consignee Wise details screen:

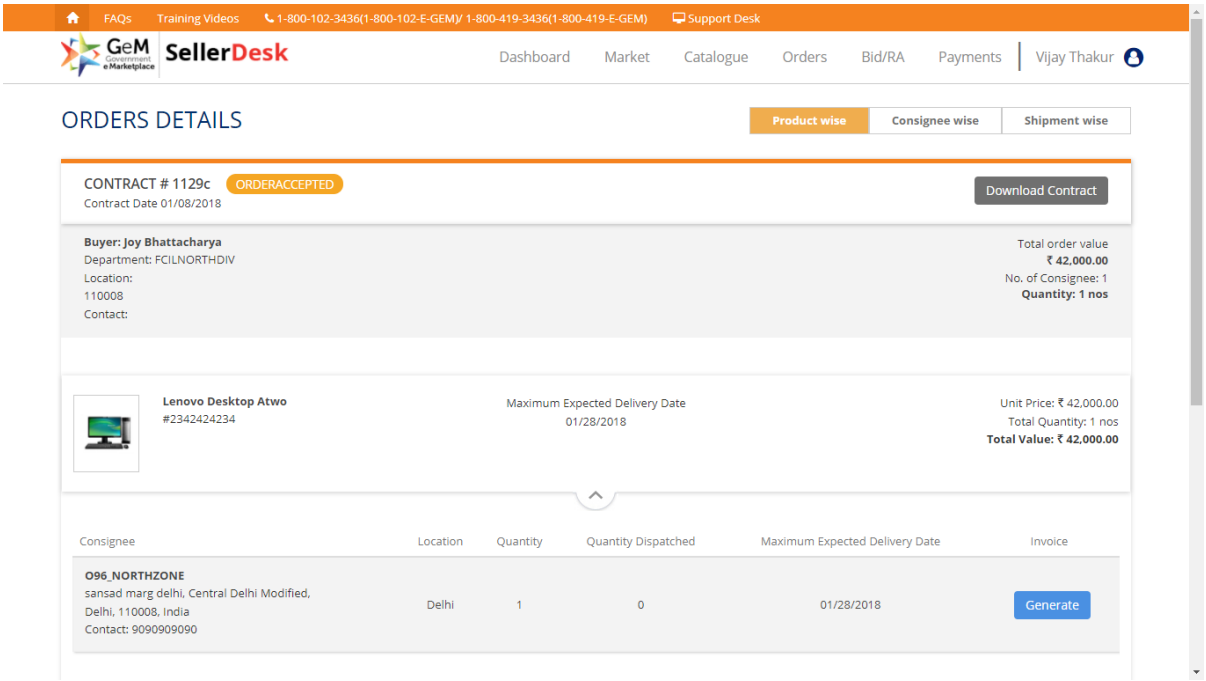

Shipment Wise details screen:

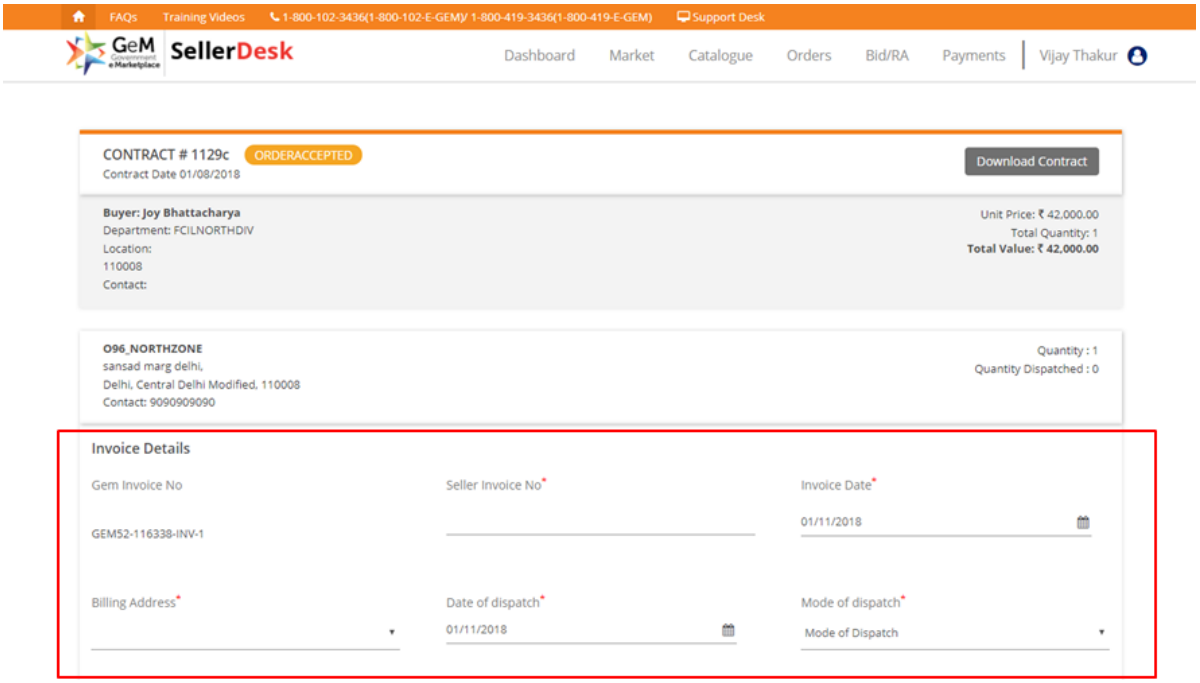

Whenever seller would like to have a look to the contract, can download the same from this option.

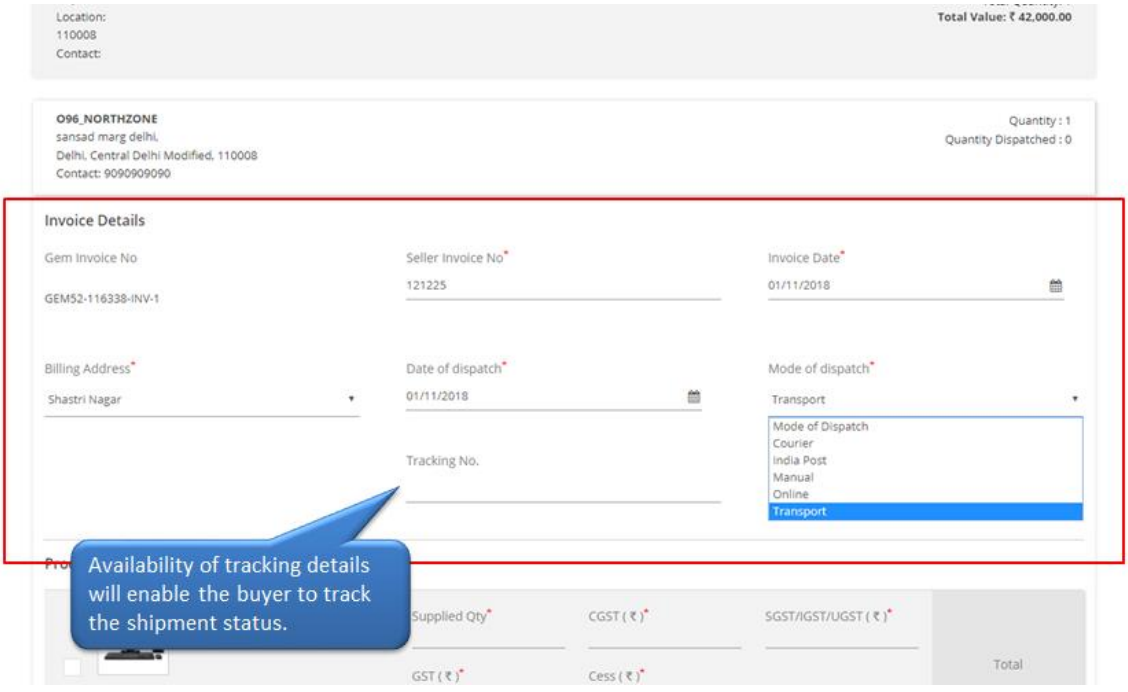

Once the seller specific to order ships the goods to consignee, have to log in to the system and generate invoice.

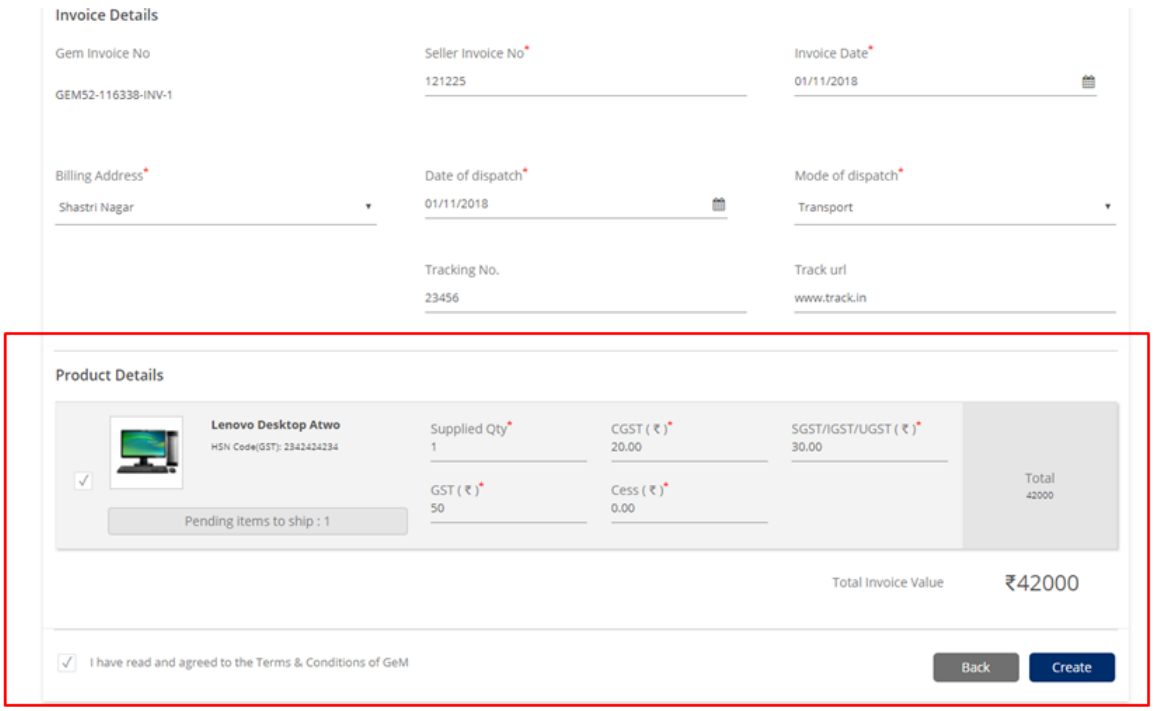

Seller will be able to fill in the details of invoice and have to provide the necessary details.

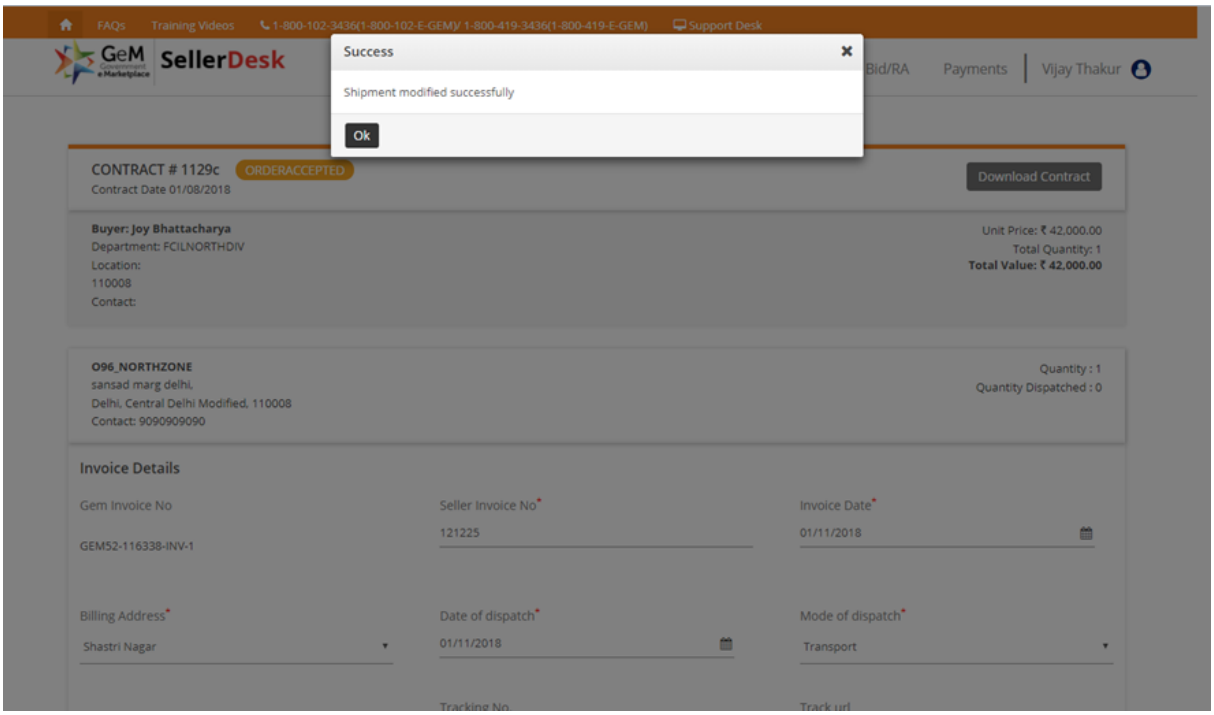

Tracking details of the shipment should also be added along with invoice details as shown below.

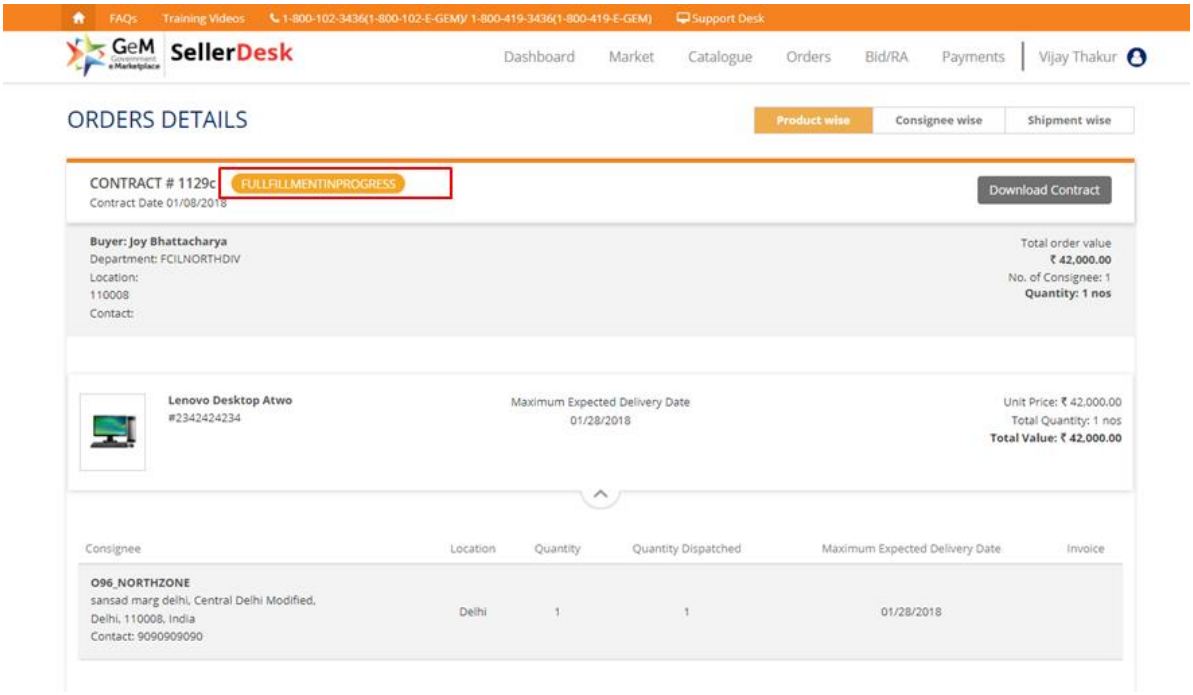

On click of CREATE button the invoice will be uploaded and processed in GeM system.

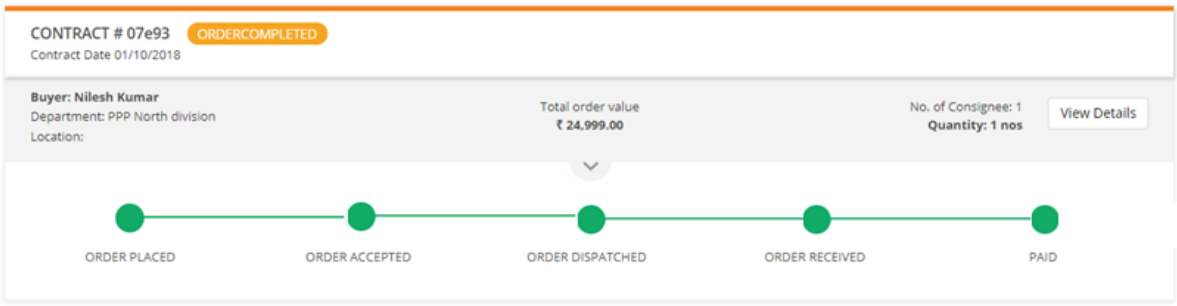

Will get the below message on successful upload.

This process of shipment will be repeated until the entire order number is delivered/shipped to consignee. Meanwhile the order status will reflect in relevance.

On completion of the order the status will change in relevance to it.
