BHIM Faqs

Most Popular Queries

A. Unable to login/ use BHIM

1. **Why is my mobile verification process failing repeatedly?**

Mobile verification process can fail due to any of the following reasons:

a. The app is unable to send an SMS to your number.

b. There is some network error on your phone.

How can I fix it?

Kindly ensure that your mobile phone has network connectivity (mobile data is switched on and flight mode turned off). In case you are still facing issues, you can update to the latest version of the app by logging in to Play store/Appstore and try again.

2. **What do I do when I get the 'SMS sending failed' notification while registering my mobile number?**
   - Make sure that there is network connectivity on your phone (mobile data is switched on and flight mode is turned off).
   - Your telecom service provider might charge you an SMS fee for sending the SMS. Ensure your phone has sufficient balance to send the SMS.
   - Do not switch screens/applications during the process of registration. Doing so will lead to your session expiring.
3. **I am not able to login to my BHIM app even after entering my passcode. What do I do?**
   - Make sure that your phone has network connectivity (mobile data is switched on and flight mode is turned off).
   - Make sure the passcode you have entered is correct. In case you do not remember your passcode, you can click on 'Forgot Passcode' and reset it.

B. Unable to see my bank while linking account

1. **Why am I not able to see my bank while linking my account?**
   You will only be able to see the bank that is live on BHIM. You can check the list of banks that are live on BHIM here.
2. **What can I do when I get the 'Unable To Fetch A/c' Or 'Account Does Not Exist' notification?**

- If you receive an "Unable to fetch A/c" notification, please wait a few minutes and try again. This error may occur when the system is offline.
- If you are getting an error while trying to link a Minor A/c or Joint A/c on BHIM, you may have to contact your bank.
- In case you are trying to link an account type that is not supported by your bank's internal policy (Minor, Joint, Dormant A/c etc.), kindly contact your bank.
- If you get the 'Account does not exist' notification, ensure that you've selected the correct bank account and that you've linked your mobile number to that bank account.
- In case of Dual SIM, kindly ensure that you select the number that is linked to the registered bank account.

C. Unable to Add/change/remove bank account

1. **I am unable to change my default bank account on BHIM.**

   Login to your BHIM App >Bank account. You will then be shown the accounts that you have linked to your BHIM account. You can click on the 'make default' option next to the bank account you would like to make your default account.
2. **I am unable to remove my bank account from BHIM.**

   Login to BHIM app > bank account. You will then be shown the bank account that you've linked to you've linked to your BHIM account. You can select the 'remove' option under the account that you would like to remove / delete / unlink from your BHIM account.
3. **How many bank accounts can I link my BHIM account?**

   You can link up to 5 accounts with your BHIM account .

D. Unable to set / change UPI Pin

1. **I am not able to set my UPI pin . what do I do?**

   You will require the last 6 digits and expiry date of your debit card to set the UPI PIN. If you fail to receive the OTP in time , kindly click on the 'resend otp' option. If It does not work , please wait for some time and try again. Please note that only debit cards linked to the account can be used for setting the UPI PIN.
2. **How can I reset my UPI pin?**

   Login to your BHIM app > bank account . you will then be shown the accounts that you've linked to your BHIM account . you can select the 'reset' option under the bank account you'd like to change the PIN of. (please keep your debit card details handy to reset your UPI pin)
3. **What Should I do if I have exceeded the number of login attempts by entering the wrong UPI PIN?**

   You will have to wait for 24 hours post which you will be allowed to make any transactions .
4. **Why do I get a 'wrong debit card details' error while trying to set UPI pin?**

This error occurs when the details you have entered are incorrect. Kindly get in touch with your bank if you get the error message even after entering the correct details.

E. Not able to send / receive money

1. Why am I not able to send money?

- Your per day transaction limit is Rs. 40,000 on BHIM.
- If you're sending money to a UPI ID, please, make sure that you've entered the correct UPI ID.
- Kindly ensure that you've entered the correct UPI PIN.
- You will not be able to send money if your bank is facing some issues.
- If you're a new user on BHIM, you are allowed to do transactions of up to Rs. 5000 for the first 24 hours.
- You will be able to utilise your daily limit of Rs 40,000 24 hours after you've registered.
- Kindly note that your bank's transaction limit may vary from that of BHIM.

2. Why do I see 'per transaction limit exceeded'?

- A user on BHIM can send money to a limit of Rs. 40,000 per transaction and Rs. 40,000 per day.
- If you're a new user, you are allowed transactions of up to Rs. 5000 for the first 24 hours.
- You will be able to utilise your daily limit of Rs 40,000 24 hours after you've registered.
- Kindly note that your bank's limit may vary from that of BHIM.

3. Why do I see ' risk threshold exceeded'?

- A user on BHIM can make only 10 financial transactions per day and the total of these transactions cannot exceed Rs. 40,000.
- Once you've exceeded your daily transaction limit, you'll receive the 'Risk threshold exceeded' notification.

F. Transaction related queries

1. What should I do if I have transferred the money but the it hasn't been credited to the receiver's account?

- If your BHIM App states that your transaction is successful but your beneficiary hasn't received the money, you might want to check whether you've entered the correct details (UPI ID or A/c IFSC).

- In case your transaction is in 'Pending' status kindly check the status of the transaction after T+2 working days. If the issue still persists, kindly reach us out via our customer care number.

- In case your transaction has failed, but the amount was debited then the same will be reversed to your account in T+2 working days.

- If you still face the issue, you can reach out to us or raise a complaint via your BHIM App.

2. **Can I reverse transaction if I mistakenly sent the money to the wrong account?**
   You can get in touch with your bank and raise a complaint for a charge bank.
3. **Whom should I contact in case of any issues with the app?**
   You can report any feedback / suggestion / complaint on the app.
4. **Why is my transaction getting declined?**

   Your transaction may be declined due to any of the following reasons:

   - Either of the bank servers might be temporarily down. In that case, kindly wait for some time before you re-initiate the transaction.
   - It might be a suspected case of a fraudulent transaction.
   - You might have entered the wrong UPI PIN.
   - The beneficiary details you entered might be incorrect.
   - Your mobile number might be linked to multiple types of accounts in the same bank.
   - If you've changed your mobile number linked to your bank account then there is a possibility that the bank hasn't updated your new number due to which you will not be able to complete your transaction. In this case, kindly contact your bank.
   - The transaction you're trying to complete might be a violation of your bank's policy. In this case, kindly contact your bank.

Installation And Registration

1. **Who can use BHIM?**
   Any person who has a smartphone and a bank account can use BHIM to make transactions. However, you will need to have your mobile number registered with the bank and a debit card linked to that account. You can download the BHIM app from Play Store or Appstore**.**
2. **How does BHIM verify my mobile number and what is the process?**
   Follow the following steps after you've downloaded and installed the BHIM app for the first time:
   1. Select Language
   2. The app will ask for permission to send an SMS to verify your number.

3. Successful attempt will take you to Home page.
4. If the attempt was unsuccessful, you will receive an OTP after 45 seconds.
5. If step 4 is unsuccessful, you will be prompted to dial a USSD code.
6. Once NPCI recognizes your mobile number and handset, your registration will be complete.

3. **How do I create my UPI ID?**

   Upon successful registeration , a default ID i.e mobilenumber@upi will be created for you. You can add one more VPA by going in the profile section.

4. **What is UPI ID?**

   A UPI ID is a unique identifier, which you can use to send and receive money on UPI. Think of it as an email ID which you can use to transfer money.

UPI PIN setting

1. **What is UPI pin?**

   UPI PIN is a four or six digit number that is set by customer on BHIM after the registration process. UPI pin is used for authenticating all transactions done on UPI platform (BHIM or *99# or UPI apps) to ensure secure payments every time you use BHIM UPI to transact.

2. **What happens after registration?**

   Once you have registered your mobile and it has been verified, you will have to select your bank account and set your UPI pin.

3. **I cannot see my bank in list , what do I do?**

   Your bank is not registered with UPI , hence it is not on the list . our team is working towards getting all banks on UPI.

4. **I can see my bank , but I cannot see my account number. What do I do?**

   Your bank does not permit your account type to be listed on UPI. Kindly try another account**.**

5. **How do I set my UPI PIN?**

   After you select your bank account, you will be prompted to set your UPI pin for the first time. You need to input the last 6 digits of your debit card along with the expiry date. If you are an SBI Maestro card user, you can enter the expiry date as 01/49.

6. **I have already set a PIN on another app with a bank account. Can I use the same PIN on BHIM?**

   While setting the UPI pin there is a SYNC option at the bottom of the transaction screen. If you click that, the pin you have set on the other app will be set on BHIM.

7. **I am unable to set my UPI PIN. What do I do?**

   Due to some technical reason, your UPI PIN cannot be set. Kindly click here (page should redirect to Contact Us>>Issue with UPI pin) and provide details.

Sending Money

1. **What methods are available on BHIM for sending money?**

   BHIM users can send money by using one of the following details of the beneficiary.

   VPA (registered on UPI)

   Mobile No. (Registered on UPI)

   Account Number and IFS code.

2. **While sending money via UPI ID, the account holder name and UPI ID are different. Are they the same person?**

   When you enter a VPA and click on verify, the account holder's name (as mentioned in the bank's system) will be displayed. This is for you to cross check if the sender and the bank account to which you want to send money are the same. In case they appear different, please re-confirm the VPA of the receiver. Money once sent through BHIM cannot be reversed.

3. **Is there a limit to the amount of money that can be sent using BHIM?**

   A user can send up to Rs 40,000 per transaction and a maximum of Rs 40,000 per day for one bank account. This limit is available per bank account linked on BHIM.

4. How do I switch the default VPA?

   The default VPA is mymobileno@upi. You can change this by going to the 'my profile' section and selecting from the available VPAs.

5. **How many VPAs can be added to BHIM?**

   BHIM allows you to use two VPAs. First one is the default VPA(mobilenumber@upi). You can create the second one , by going to the 'my profile' page.

6. **I have multiple accounts linked to the same mobile number . which accounts can I use for sending / receiving money?**

   The accounts which you have selected will be displayed on the top left with the bank's icon. That will be your default bank. You can change the bank account by going to 'bank accounts' and clicking on the three dots menu option to change the bank.

7. **I have two bank accounts . using one of them, I have registered on BHIM. How can I send money from this account to the other?**

   Let's say you have two accounts i.e ABC and XYZ and both are linked to BHIM. You want to transfer money from ABC to XYZ. Click on Bank Accounts > Send to Self > To Account. Enter the amount you want to send and select the account you want to send the money from, from the 'From Account' section. Once you've entered your UPI PIN for ABC account. you will be able to transact.
   *Option available only on the latest version of BHIM.

8. **Can I save the beneficiary details for later transactions?**

Yes , you can save details of the beneficiary for future transactions. While sending money to a receiver , you have to click on the option ‘ save for future’.

9. **How can I use the ‘scan & pay’ feature for sending money?**
   Scan & pay option is present in the home page where you can click and the QR scanner opens up. Using this you can scan the QR code of the receiver and send him money. You can also use scan and pay on your passcode screen. You can also upload a QR code saved on your phone as an image.
10. **How can I generate my QR code?**
    Once you register on BHIM, a QR code and default VPA is created for you. You can check these details in the ‘my profile’ section of the BHIM app.

Receiving Money

1. **What is a request?**
   On BHIM , you can initiate a request , asking money from someone. You have to enter the amount and UPI id. The user who receive the request can pay or decline the collect request by authenticating it with their UPI PIN.
2. **How can I check collect requests made to me ?**
   In the ‘transactions’ menu you’ll find a ‘pending’ section. Under this section collect requests sent to you will be displayed. You can approve or decline these requests.
3. **How can I block unknown money requests?**
   You can block unknown money requests by confirming that the request is a spam. All you have to do is click on spam – next to the request. You can also mark the request sender as spam so that he can no longer send you unwanted requests.
4. **Is there a time frame within which the money request has to be accepted?**
   Pending transactions can be viewed in the transaction section of BHIM. The requests will be vaild for as long as the initiator has kept it. If the request is not accepted within that set time , the request expires.
